

# 3StepShare QuickStart Guide

Version 3.0

## 1. Verify 3StepShare is installed on other user's computers

Verify that the 3StepShare plugin for Microsoft Outlook is installed on the computer of all other users that you wish to share Outlook folders. If one or more users you wish to share Outlook folders with do not have the 3StepShare Outlook plugin installed, please direct them to the 3StepShare website to download and install it at [www.3StepShare.com/download/download.aspx](http://www.3StepShare.com/download/download.aspx).

## 2. Invite someone to share one or more of your Outlook folders

- a) Select an Outlook folder that you wish to share with another user (example: your **Calendar** folder).

- b) Click on the **Share folder** icon in your Microsoft Outlook toolbar (this added to the toolbar after you installed the 3StepShare plugin for Microsoft Outlook).

*For Outlook 2003-2007*

*For Outlook 2010-2013*

- c) Type in the name and e-mail address of the person you wish to share the selected Microsoft Outlook folder; select the access rights you wish for them to have with the selected Outlook folder you are sharing; and click **Save**. (Doing this send invitation to share the specified folder to the

**NOTE: Here is what the person you invited will see (or what you would see if invited to share someone else's Outlook folder with 3StepShare) when the email invitation is received...**

### 3. Your selected Outlook folder is now shared!

Once the invitation to share one or more of your Outlook folder/s with another user has been accepted, the selected shared folder will be added to their Outlook folder list. Using the example screens shown above, James' shared calendar folder will now appear in Thomas' Outlook folder as shown in the example below:

In the example sharing scenario above, Thomas can now view James' calendar appointments, make changes to James' existing appointments, and add new appointments to James' calendar.

### How often are shared folders updated on between users?

By default, shared folders with 3StepShare will be checked and synchronized each time a user sends/receives email within Outlook. Any time you wish to publish updates from your Outlook installation to those Outlook installation in which you are sharing folders, simply click on the **Sync Outlook** icon on your Outlook toolbar and shared folder updates will be sent instantaneously.

*For Outlook Version 2003-2007*

## Where can I get more details about using 3StepShare?

This guide contains the bare minimum of information a user needs to get started with sharing Microsoft Outlook calendar, contact, task and/or email folders using 3StepShare. To access the complete 3StepStep User Manual, click on the following link: [3StepShare User Manual](#).
